Get a future
in agriculture

As the biggest export industry in New Zealand, agriculture provides some awesome career opportunities for you.

Do something that really matters – scientists, farm management, vets, environmental engineers, farm consultants, bankers, journalists, food technologists, marketers, accountants and fertiliser reps – with variety, challenge, financial rewards and opportunities to grow and **make your mark!**

Be part of our growing industry!

Nicole Steel

Bachelor of Science (Animal Science & Agriculture) Massey University 2010-2012

“ I have travelled to both China and Portugal directly as a result of my studies in mastitis, won a major prize in the Realise the Dream competition and had all my studies at Massey funded by the DairyNZ scholarship. Now I have the opportunity to further my knowledge and work in the industry I am so passionate about! How good is that! ”

“ Growing up on a sheep and beef farm just out of Wellington city I got the best of both worlds. In the future I would love to own a ram and bull stud and finishing farm. It's a great honour to be awarded this scholarship. It provides me with a solid foundation to build my career on, and sets me on a path to becoming the industry leader I aim to be. ”

Hamish Best

Bachelor of Science Honours, Agricultural Science Massey University 2008-2011
Applied Sciences student of the year 2010
